

# Dussack Tournament Objectives and Guidelines

The primary objectives of this tournament are to offer a competitive platform that caters to participants of diverse skill levels. The fundamental intent is to foster methodical engagement among competitors, focusing on genuine combat rather than strategizing around rule nuances.

**Promotion of Skillful Combat:** The essence of this tournament lies in encouraging participants to engage in skillful combat that embraces strategic thinking over rule manipulation.

**Tournaments prioritize targets over right-of-way fencing**

*Rules sets subject to change, if there are any major issues discovered. Tournament participants will be notified via e-mail if there are any more changes.*

## SCORING ACTIONS AND TARGET SPECIFICATIONS

In order to make judging easier, all legal targets are considered "DEEP" or "SHALLOW." Target classification is defined below.

**Rules favor "DEEP" targets**

### Target Definitions

DEEP	The head, neck, and torso
SHALLOW	Shoulder to hand, hips to shins

Targets (Points)	
DEEP	SHALLOW
	

## Points

The following table shows how points are calculated based on the type of strike.

Target	Cut	Thrust	Pommel / Disarm (HEAD ONLY)
DEEP	3	3	3
SHALLOW	2	2	0

## Point Details

<b>Understanding Targets</b>	Recognize "SHALLOW" areas, including regions below the waist and arms (shoulder to hand). Everything else is a "DEEP" target.
<b>Strike Standards</b>	<b>Cuts:</b> A valid cut must involve the last two-thirds of the true edge or the last third of the false edge contacting the target. <b>Thrust:</b> The point of the dusack must be placed on a valid target.
<b>Disarm</b>	If your opponent's blade is forced from their hand to the floor due to a blade-on-blade action (like a parry or blade beat), it counts as a disarm. No follow-up attack is needed. A successful disarm is considered a "DEEP" action.
<b>Improper Contact</b>	<ul style="list-style-type: none"><li>• Cuts that land with the flat or strong part of the blade, or without proper force or edge alignment, are not considered quality. Push cuts will not count.</li><li>• If the point glances off or slides on the opponent, it won't be considered a quality hit.</li></ul>

---

## THE GRAPPLE

<b>Definition</b>	<ul style="list-style-type: none"><li>• You can use your off-hand to control or redirect the opponent's sword hilt or arm, but not their blade.</li><li>• Off-hand pushes and torso contact with the opponent's body are allowed.</li><li>• Prohibited actions include wrapping around the neck, joint locks, throws, kicks, and strikes with the hand.</li></ul>
<b>1 Tempo</b>	There is one tempo to complete a scoring action
<b>Pommel</b>	Pommels may only be placed on the front or side mesh of the opponent's mask, but forceful strikes with the pommel are not allowed.
<b>Indicated Blows From Superior Position</b>	<p>If a grapple ends with one fencer in a position of superiority, they do not need to land a follow-up blow. Indicating a follow-up strike, even if aimed at a prohibited target, will result in a DEEP strike being awarded. However, any actual blow to a prohibited target will be penalized.</p> <p><b>Example:</b> If Fencer A pushes Fencer B into a vulnerable position with their spine and back of the head exposed, Fencer A can indicate a chambered strike. A halt will be called, and Fencer A will be awarded a DEEP strike without needing to land the blow.</p>
<b>Clock continues</b>	Regardless of the outcome the clock doesn't stop
<b>Stop grapple</b>	If no blow is landed or shown within 1 tempo, director will call hold, no-exchange, and reset fencers.

---

## RING OUT

<b>Ring Out Pause and Reset</b>	If a participant crosses the ring boundaries with both feet, the action will be immediately paused with a verbal warning. Competitors will be reset to their respective corners, and the match will resume from this position after the ring out. Upon a second and continued ring outs the participant will lose 1 point.
<b>Ring Out Strikes</b>	If a fighter exits the ring, any subsequent strikes will not contribute to the score. If there is any confusion regarding whether a strike landed before a fighter left the ring, directors are encouraged to award the point
<b>Them leaving</b>	If you strike your opponent prior to them leaving you get the point
<b>You leaving</b>	If you strike your opponent prior to you leaving you don't get the point
<b>Ring Maneuvers</b>	<b>NO</b> pushing, shoving, or tripping an opponent out of the ring. <b>NO</b> intentionally leaving the ring.

# AFTERBLOW & DOUBLE STRIKE SCORING

## Rules favor “DEEP” targets

**NOTE:** A hold call will stop all actions with fencers going to their corners

<b>No Points for Simultaneous Strikes (Doubles)</b>	In cases of SHALLOW/SHALLOW or DEEP/DEEP exchanges, neither fighter scores points. <u>Avoiding doubles</u> allows participants to maximize their total points
<b>DEEP/SHALLOW Exchange (Afterblows &amp; Doubles)</b>	If one fighter strikes a DEEP target and the other strikes a SHALLOW target, <b>1 point</b> will be awarded to the fighter striking the DEEP target, regardless of strike order
<b>DEEP/DEEP or SHALLOW/SHALLOW Exchanges (Afterblows)</b>	If both fighters strike a DEEP or SHALLOW target as the result of an afterblow, neither fighter is awarded points
<b>Timing (Afterblows)</b>	Execute afterblows within one tempo after a scoring action. Use no more than a single step or strike
<b>Multiple Hits</b>	If a fighter hits a “SHALLOW” target and then a “DEEP” target then the “DEEP” is counted. Required within a single tempo

# ILLEGAL ACTIONS AND FORCE ASSESSMENT

**NOTE:** Illegal **safety** actions will:

- Immediately start escalation policy
- No Points will be earned

<b>Prohibited Strikes</b>	<b>DO NOT</b> strike the back of the head, spine, groin, and feet. Striking with the crossguard to any body part is also prohibited. It is mandatory to <b>NOT</b> attack these targets, even if your opponent exposes themselves recklessly
<b>Avoiding Invalid Exposure</b>	<b>DO NOT</b> expose an invalid target, whether intentionally or not
<b>Takedowns and Throws</b>	<b>NO</b> takedowns and throws
<b>Submission Holds and Joint Locks</b>	<b>NO</b> submission holds or joint locks
<b>Striking the Floor and Throwing Swords</b> (White Card)	<b>NO</b> striking the floor with the sword or throwing it
<b>Taunting and Provocative Behavior</b>	<b>NO</b> Taunting or any provocative behavior
<b>Ring Maneuvers</b> (White Card)	<b>NO</b> pushing, shoving, or tripping an opponent out of the ring <b>NO</b> intentionally leaving the ring
<b>Hands and Feet Strikes</b>	( <b>NO</b> punches or kicks) - Strikes using hands and feet, such as punches or kicks, are not permitted
<b>Controlled Strikes</b>	Ensure strikes are controlled, (Strike Force & Excessive Force), to prevent unnecessarily powerful hits that can cause severe injury. Scoring attacks do not require significant force

## Competitor Autonomy and Rest Period

<b>Self-Call Option</b>	Participants have the option to self-call <u>if they get hit</u> , even if it may not be in their best interest
<b>Rest Between Matches</b>	Competitors engaged in consecutive matches will have a rest period of 60 seconds between matches

## ELIMINATIONS AND FINALS PROCEDURE

<b>Advancement and Seeding</b>	
<b>Advancing to Elimination Rounds</b>	<p>Progress to the elimination rounds is based on the HEMA Score Card Algo throughout the preliminary matches or pools</p> <p><b>NOTE:</b> In this tournament, transitioning from pool rounds to the elimination phase hinges on accumulating as many points as possible across all matches. To achieve the best results, focus on scoring deep targets without incurring after blows or doubles. While points can still be earned with after blows or doubles, this is only advantageous if you land a deep target and your opponent hits a shallow one—resulting in minimal points. Your best strategy is to engage in clean, precise, and safe fencing.</p>
<b>Seeding in Elimination Rounds</b>	<p>Your seeding position in the elimination rounds is determined by the HEMA Score Card Algo in the preliminary matches</p>
<b>Uniformity in Format</b>	
<b>Consistency in Format</b>	<p>Elimination and finals matches adhere to the same guidelines and structure as the pool matches other than the identified differences with time periods and exchanges</p>

# ESCALATION POLICY FOR SAFETY AND FAIRNESS

Illegal actions **will start** the *escalation policy*.

**Note:** If a Judge calls hold multiple times due to fighters not listening then it is at their discussion to utilize the escalation policy.

<b>Warning</b>	
<b>White Card</b>	A White card is for a non-safety related illegal action, and results in a deduction of 1-point from the offending participant's <u>current</u> match score. This doesn't affect the escalation policy below. If a fighter isn't ready for their match they will also receive a white card.
<b>Penalty Escalation</b>	
<b>Verbal Warning</b>	In case of rule violation, an initial verbal warning will be given, allowing a chance to correct actions promptly <ul style="list-style-type: none"> <li>● 1 warning per match prior to escalation</li> </ul>
<b>Yellow Card</b>	A yellow card results in a deduction of 1-point from the offending participant's <u>current</u> match score. This deduction affects the ongoing match
<b>Red Card</b>	A red card results in a deduction of 2-point from the offending participant's <u>current</u> match score. This deduction affects the ongoing match
<b>Black Card</b>	A black card leads to disqualification from the tournament without reimbursement. This occurs when actions pose significant danger
<b>Cumulative Effect</b>	Remember, the escalation process accumulates across the entire tournament. Repeated violations result in higher penalties. Point deduction limited to match
<b>Impact on Points</b>	Any action resulting in a warning or card will not contribute to point awards. This underscores the importance of responsible conduct

# FIGHTER WELL BEING AND EVALUATION

The wellbeing of the fighters is of the utmost importance and as such the following rules have been established.

<b>Excessive Force Evaluation</b>	Upon a participant's notification of excessive force the director will ask if the participant wants a medical evaluation
<b>Injury Assessment</b>	Fighters who signal injury will receive a chance to continue the match after an evaluation by a medical professional
<b>Collecting After an Exchange</b>	Fighters needing a moment to gather themselves after an exchange will be assessed via a medical evaluation
<b>Medical Evaluation</b>	Director will call a medical hold and the match will pause. The participant will be pulled to the side and a medic will assess their condition. Director will determine excessive force after the evaluation and determine if the match will continue
<b>Repeat Incidents</b>	If there are more than one incident with a single participant within a tournament, the fighter will be asked to forfeit their participation for their own safety

For clarification: Fighters who indicate that they have been harmed will be offered an opportunity to continue a match after a medical evaluation. If a fighter indicates they are not immediately capable of resuming or wish to be evaluated, a medic will be called to assess the fighter. Fighters who indicate they need a moment to collect themselves following an exchange will be evaluated. The director will determine if there was excessive force used following a medical evaluation. If there are more than one incident with a participant within a tournament the individual will be required to forfeit participation in the tournament for their own safety.
